WHO'S THE DOCTOR?

Everything you need to know about you know who...

NAME

The Doctor. Just the Doctor. He's an alien traveller in time and space and he's got no surname. Many have asked him 'Doctor who?' but no one ever gets a proper reply...

BODY

This is the Doctor's tenth body. He's also got two hearts.

HOME

Home is the TARDIS, which stands for Time And Relative Dimension In Space, an incredible space and time machine shaped like a police box. His home planet was destroyed in the terrible Time War along with all his people. This makes the Doctor the last of the Time Lords.

AGE

The Doctor is over 900 years old. That's seriously old, so why doesn't he look his age? Luckily, the Time Lord has the power to change his body from time to time. This special trick is called regeneration, and it means he will live much longer than humans like us.

I am!
Hello!

THE DOCTOR'S ENEMIES

The Doctor has made many enemies while time travelling - including all of these horrors!

BRAIN

The Doctor has a brilliant brain! He can speed read and process loads of information in just a few seconds!

CLOTHES

Wears a stripey suit and tie that he found in the massive TARDIS wardrobe. His trainers are perfect for running for his life, as he often does. He also likes wearing a big warm coat.

Wow, you're pretty brainy after all!

BEST FRIEND

Rose Tyler. They are officially best mates. The Doctor met her in the middle of a nasty alien invasion...

JOB

Always on the move. A traveller with all of time and space waiting for him outside the TARDIS doors. And where there's danger and excitement, the Doctor is usually there to help!

DOCTOR'S NOTES

Did you know he's had all these faces over the centuries?

1 Hard to believe this was the first Doctor. He could be quite grumpy!

2 The Doctor became younger but was still the same man!

3 The third Doctor was very much the English gentleman.

4 The wide-eyed fourth Doctor liked to wear a long scarf!

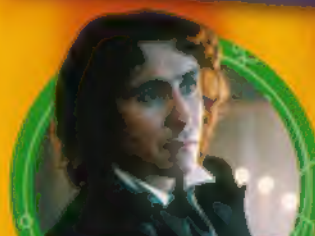

5 The fifth body was incredibly young! He also loved cricket.

6 Number six was brash and liked loud colours!

7 The seventh Doctor could be quite mysterious.

8 Number eight looked like a young Edwardian man.

9 Doctor nine was brave, funny and had a fantastic life!

INVASION EARTH!

— starting with
**THE CHRISTMAS
INVASION!**

WHAT'S IT ALL ABOUT?

The TARDIS, carrying a newly regenerated Doctor and Rose, crash-lands in London. It's Christmas and there's an invasion brewing while the Doctor recovers. A massive space ship appears in the sky...

1 A NEW DOCTOR

The Doctor was forced to regenerate after he absorbed all the energy of the Time Vortex.

Rose watched in horror as her best friend exploded with energy and changed into a new Doctor!

2 TARDIS TERROR!

Crash! The TARDIS nearly flattens Jackie and Mickey as it lands in Rose's old estate. The Doctor steps from the TARDIS and collapses with exhaustion.

Sycorax
rock!

3 UNDER ATTACK!

While the new Doctor sleeps, Rose and Mickey do a spot of last-minute Christmas shopping. The pair are soon attacked by some sinister aliens that have dressed up as Santa Clauses!

4 KILLER TREE!

At Jackie's flat a Christmas tree tries to kill everyone... but the Doctor wakes up and destroys it with his reliable sonic screwdriver. The Doctor realises that the fake Santa Clauses aren't the real threat. There's something else out there – and it's getting nearer!

5 THE SYCORAX

The war-like Sycorax 'hypnotise' humans with blood control and want to take over the Earth! When the Doctor wakes up, he fights their leader and orders the aliens to leave. As they do, Harriet Jones, Prime Minister, gives the order to destroy the ship...

Rose doesn't think much of the Sycorax leader's breath.

Behind you!

6 TO NEW ADVENTURES

After a delayed Christmas lunch, everyone goes outside to see the snow – which is actually ash from the Sycorax space ship. The Doctor asks Rose if she'd like to continue travelling with him and she says yes! That's the Christmas spirit!

The stretchy sheet of skin that was the last human, Lady Cassandra, dried out and exploded when the Doctor and Rose met her! Shame, as the poor thing would have made a lovely beach towel...

File 01 THE DALEKS

Don't be scared... be prepared!

WHO ARE THEY?

Beware the Daleks, one of the **most powerful** **creatures**. Feared throughout the universe, they are full of **hatred** for all other species.

Aim for the eyestalk... it's the easiest part of the Dalek to destroy.

SUCKER!

A standard Dalek has a **sticky sucker** and gun. The sucker can attach itself to objects (like someone's face). The gun produces a **powerful beam**, which immediately kills anyone it hits.

BODY

The gold Dalek casing is really a travel machine for a **horrible creature** inside. The Daleks mutated after a hideous war on their home planet, Skaro. Yuck.

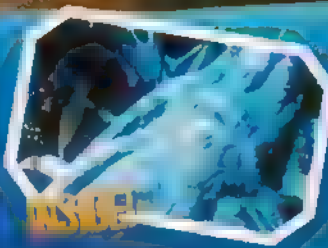

ARMOUR

Daleks are generally **unstoppable**. They have a forcefield around their casings that can **melt bullets** and protect the creature inside.

DALEK TALK

Daleks frighten enemies by screaming 'EXTERMINATE!' and 'DESTROY!' very loudly. Don't answer back, just **run**!

EXTERMINATE!
DESTROY!

Bertie, from Twickenham, sent us a mean Dalek!

Thanks to Anna Bor, who's sent us this picture of the Doctor, Rose and the TARDIS.

We got this letter addressed to the Doctor from Sam, aged 7, from London...

Please can you take my two sisters away in your TARDIS. They are 13 and 9 and they are very irritating.

What? And allow them to have all the adventures without you...?
